

STEADY ON

Hey you, stop tryna fake it, you know that you are gonna make it but
your load won't lift until you break in two

Your head's all caught up in tomorrow, there's a thousand joys right here
and you can't borrow time and i know your mind's made up to follow a
star

So steady on, steady on cos this is where you belong and steady on,
steady on cos this is where you are strong and steady on steady on you
know that there's nothing wrong with wearing wings and wanting things
that you can't see, with wearing wings and wanting things that you can't
see

Hey you, I wanna hear it, give it up and you'll no longer fear it and truly
it's your time to just draw near and let go...cos there's a certain sparkle
in your eye when you slam those doors and hold your head up high,
when you find the time to fall into the sky, don't you know

So steady on, steady on cos this is where you belong and steady on,
steady on cos this is where you are strong and steady on steady on you
know that there's nothing wrong with wearing wings and wanting things
that you can't see, with wearing wings and wanting things that you can't
see....Repeat...
